

The Herpetological Bulletin

Instructions to authors (Revised June 2012)

The Herpetological Bulletin is produced quarterly and publishes, in English, a range of herpetological articles. These include full-length papers, book reviews, natural history notes and other items of general herpetological interest. Emphasis is placed on natural history, conservation, captive breeding and husbandry, veterinary and behavioural aspects. Articles reporting the results of experimental research, descriptions of new taxa, or taxonomic revisions should be submitted to *The Herpetological Journal*.

All contributions are subject to peer review and will be judged on reports supplied by referees. These will usually include comments on scientific rigour, originality and the degree of general interest of the subject matter. The decision of the editor(s) will be final.

Full papers should be no longer than 4000 words.

Short notes should be based on a single data set and one figure or one table but can have a short abstract with a maximum 100 words.

Natural history notes should have the form of an unusual single observation of a species or event that would not normally constitute a *short note*.

Authors should consult a recent edition of the *Bulletin* for general guidance.

All submissions should be sent by e-mail to: - herpbulletin@thebhs.org
Initial electronic submissions should be no larger than 2MB including figures/ photographs etc and have the following format.

General text layout. Section headings are in uppercase, bold, centered. First paragraph of each section is not indented. Following paragraphs start indented.

Title (example). A hypothesis to explain the distribution of the great crested newt *Triturus cristatus* in the Highlands of Scotland

Authors (example) JAMES SMITH and VALERIE MOORE

¹*Address of First Author.* ²*Address of Second Author.*

¹Corresponding author: e-mail address

ABSTRACT

This should not exceed 10% of the papers length

MATERIALS AND METHODS

Any sub-section headings are bold.

RESULTS

Any sub-section headings are bold.

DISCUSSION

Any sub-section headings are bold.

ACKNOWLEDGEMENTS

REFERENCES

For a guide to formatting references authors should consult a recent issue of the *Bulletin*. Example formats are given below.

Seigel, R.A. & Ford, N.B. (1987). Reproductive ecology. In *Snakes: Ecology and Evolutionary Biology*, pp. 210-252. Siegel, R.A. Collins, J.T. & Novak, S.S. (Eds.). New York: Macmillan Publ. Co.

TABLES

Tables should be submitted as text separated by tabs within the text file of the submitted article. See an example of the *Bulletin* for layout.

IMAGES

Images (photographs, graphs, illustrations) should be submitted in electronic format (high resolution TIFF or JPEG files). Images should not be embedded within the text file of a submitted article. Images should be entirely relevant to the text and numbered sequentially with Arabic numbers (i.e. Figure 1. etc.).
